- 3) Wall hydrants, fire extinguishers and other devices assuring the security must not be overbuilt. Any interference to the pavilions or vacant areas are strictly forbidden.
- 4) The maximum height of the expositions is 3 meters. The exceptions must be approved by the Organizer.
- 5) In case the Exhibitor exceeds with his expositions the height of 3 meters is obliged to provide to the Organizer (enough in advance) before the installation the technical project in the ground-plan and front view for the approval.
